76 / 100 Speed

Should Fix:

Optimize images

Properly formatting and compressing images can save many bytes of data.

[Optimize the following images](#) to reduce their size by 153.2KiB (44% reduction).

- Compressing <http://plitka-loins.ru/images/banner.jpg> could save 48.4KiB (32% reduction).
- Compressing <http://plitka-loins.ru/images/3302.jpg> could save 27.1KiB (59% reduction).
- Compressing <http://plitka-loins.ru/images/sxema.jpg> could save 19KiB (87% reduction).
- Compressing <http://plitka-loins.ru/images/logo.jpg> could save 16.9KiB (80% reduction).
- Compressing <http://plitka-loins.ru/images/6061.jpg> could save 15.4KiB (76% reduction).
- Compressing http://plitka-loins.ru/images/75565239_5_644x461_trotuarnaya-plitka-sektor-kievskaya-oblast.jpg could save 13.7KiB (85% reduction).

Mobile

- Compressing <http://plitka-loins.ru/images/cont.png> could save 6.8KiB (13% reduction).
- Compressing <http://plitka-loins.ru/images/kovka/kovanie%20mangali/%D0%9C%D0%9A-1.jpg> could save 3.1KiB (28% reduction).
- Compressing <http://plitka-loins.ru/images/green-check-8.png> could save 2.7KiB (75% reduction).
- Compressing <http://plitka-loins.ru/images/arrow1.jpg> could save 126B (24% reduction).

Consider Fixing:

Enable compression

Compressing resources with gzip or deflate can reduce the number of bytes sent over the network.

[Enable compression](#) for the following resources to reduce their transfer size by 34.3KiB (82% reduction).

- Compressing <http://plitka-loins.ru/> could save 31KiB (82% reduction).
- Compressing <http://plitka-loins.ru/css/style.css> could save 3.4KiB (81% reduction).

Leverage browser caching

Setting an expiry date or a maximum age in the HTTP headers for static resources instructs the browser to load previously downloaded resources from local disk rather than over the network.

[Leverage browser caching](#) for the following cacheable resources:

- <https://www.googletagmanager.com/gtag/js?id=UA-80992762-10> (15 minutes)
- <https://mc.yandex.ru/metrika/watch.js> (60 minutes)
- <https://www.google-analytics.com/analytics.js> (2 hours)

Minify CSS

Compacting CSS code can save many bytes of data and speed up download and parse times.

[Minify CSS](#) for the following resources to reduce their size by 479B (12% reduction).

- Minifying <http://plitka-loins.ru/css/style.css> could save 479B (12% reduction).

Minify HTML

Compacting HTML code, including any inline JavaScript and CSS contained in it, can save many bytes of data and speed up download and parse times.

[Minify HTML](#) for the following resources to reduce their size by 8.9KiB (24% reduction).

- Minifying <http://plitka-loins.ru/> could save 8.9KiB (24% reduction).

Eliminate render-blocking JavaScript and CSS in above-the-fold content

Your page has 1 blocking CSS resources. This causes a delay in rendering your page.

None of the above-the-fold content on your page could be rendered without waiting for the following resources to load. Try to defer or asynchronously load blocking resources, or inline the critical portions of those resources directly in the HTML.

[Optimize CSS Delivery](#) of the following:

- <http://plitka-loins.ru/css/style.css>

Prioritize visible content

You have the above-the-fold content properly prioritized. Learn more about [prioritizing visible content](#).

64 / 100 User Experience

Should Fix:

Configure the viewport

Your page does not have a viewport specified. This causes mobile devices to render your page as it would appear on a desktop browser, scaling it down to fit on a mobile screen. Configure a viewport to allow your page to render properly on all devices.

[Configure a viewport](#) for this page.

Use legible font sizes

The following text on your page renders in a way that may be difficult for some of your visitors to read. [Use legible font sizes](#) to provide a better user experience.

The following text fragments have a small font size. Increase the font size to make them more legible.

- Калужская область, and 2 others render only 8 pixels tall (20 CSS pixels) final.
- Свяжитесь с нами по тел. renders only 7 pixels tall (18 CSS pixels) final.
- Укладка плитки and 6 others render only 5 pixels tall (12 CSS pixels) final.
- Художественная ковка and 1 others render only 6 pixels tall (16 CSS pixels) final.
- Кованые лестни...ограждения and 19 others render only 4 pixels tall (11 CSS pixels) final.
- Производство,...жской области! renders only 7 pixels tall (18 CSS pixels) final.
- художественная ковка and 10 others render only 5 pixels tall (12 CSS pixels) final.
- " - идеальный...из песчаника. and 17 others render only 5 pixels tall (12 CSS pixels) final.
- кованая мебель and 7 others render only 5 pixels tall (12 CSS pixels) final.
- Тротуарная плитка and 1 others render only 5 pixels tall (13 CSS pixels) final.
- Подробнее... and 6 others render only 4 pixels tall (11 CSS pixels) final.
- Облицовочная плитка and 3 others render only 5 pixels tall (13 CSS pixels) final.
- Кованные издел...шего качества. renders only 8 pixels tall (20 CSS pixels) final.
- Контакты renders only 5 pixels tall (14 CSS pixels) final.
- Укладка плитки and 2 others render only 4 pixels tall (11 CSS pixels) final.
- Укладка тротуа...рианты укладки and 2 others render only 4 pixels tall (11 CSS pixels) final.
- Укладка плитки and 8 others render only 4 pixels tall (11 CSS pixels) final.
- | and 5 others render only 4 pixels tall (11 CSS pixels) final.

Mobile

Consider Fixing:

Size content to viewport

The page content is too wide for the viewport, forcing the user to scroll horizontally. [Size the page content to the viewport](#) to provide a better user experience.

The page content is 1,000 CSS pixels wide, but the viewport is only 980 CSS pixels wide. The following elements fall outside the viewport:

- The element `<td>Калужская обла...сайта INFO-US</td>` falls outside the viewport.

Size tap targets appropriately

Some of the links/buttons on your webpage may be too small for a user to easily tap on a touchscreen. Consider [making these tap targets larger](#) to provide a better user experience.

The following tap targets are close to other nearby tap targets and may need additional spacing around them.

- The tap target `Доставка` and 2 others are close to other tap targets final.
- The tap target `Вибропрессованная плитка` and 20 others are close to other tap targets final.
- The tap target `Тротуарная плитка` and 6 others are close to other tap targets final.
- The tap target `Подробнее...` and 2 others are close to other tap targets final.
- The tap target `Продукция` and 4 others are close to other tap targets final.
